Dear family,

We get in touch with you to thank you for your participation in the after school activities of the 2016-2017 course and to present our proposal for after school activities of the European School for the next school year.

**auca projectes educatius** is a company which designs and develops services related to non formal education and sociocultural projects. One of the main services are after school activities.

For over 14 years we have been managing many educational projects aimed at all ages throughout Valencian Community, with the same slogan: *creating opportunities to educate*.

We offer you our management staff (educators, teachers, sports coaches, youth workers, technicians in sociocultural animation,...) and our team of educators and specialized instructors who will teach the workshops offered. The whole team will do his best to resolve your questions and offer the highest quality in the activities we organize.

**auca** seeks to highlight the quality of its services, combining fun and learning in our activities and conducting a management method accessible to families and school.

On the next page we will introduce the selection of workshops proposed for this year. You can learn more details of each activity through our website.
